PROJECT DESCRIPTION: Self-Storage Facility.

The applicant is requesting façade approval for the construction of a three-story self-storage building located in an existing CEG Planned Unit Development. Overall façade materials consisting of fiber cement board accented by stone and brick veneer base. In addition, the east elevation (front) will have a brick veneer with soldier course and storefront aluminum windows.

Building Façade Design Standards Referenced:

Powers and Duties

The Architectural Design Review Team shall have design approval authority for proposals seeking alternative compliance for Building Façade Design Standards (Sec. 6.1.6).

The Architectural Design Review Team shall be responsible for reviewing and making recommendations regarding proposals for Zoning Permit (Sec. 3.4) **or Planned Unit Development** (Sec. 3.20) approval in the following circumstances:

- a. Proposals in the PUD-VC district;
- b. Proposals in the Cottage Housing overlay;
- c. Nonresidential projects as identified in 6.1.6, Building Facades; and
- d. Large-scale commercial projects

e. Any other design districts to assure compliance with all applicable design guidelines.

Sec. 6.1 General 6.1.6 Building façade Design Standards

B. Standards

1. All facades shall be constructed of one or a combination of the following materials: concrete aggregate, stucco, brick, stone, glass or wood, faced concrete block.
2. No portion of building constructed of unadorned (un-faced) concrete masonry units or corrugated and/or sheet metal shall be used.
3. Monolithic buildings are prohibited and no single façade extending unbroken more than approximately 35 feet in a horizontal plane may be visible from a public roadway. Compliance may be obtained through the following:
 - a. The use of projections or recesses (articulation).
 - b. The use of architectural detail to provide visual interest including but not limited to: columns, large windows, entry ways, beams, poles, or glass.

C. Alternative Compliance

Alternative Compliance may be obtained using the Design Review process. In such cases, the Architectural Design Review Team shall have the authority to approve the following:

1. Materials of construction not listed, provided the materials used are implemented in a manner that enhances the surrounding area and complies with the intent of the code.

PLANNING STAFF EVALUATION:

This proposed three story self-storage facility consists of a primary front façade material of fiber cement board accented by brick and stone veneer. Elevations were given for the south and east elevation; however, elevations were not given on additional elevations. Likewise, the south elevation that is visible would require articulation every 35' as highlighted in section 6.1 described above.
